Moaz AbouGabal

Aspiring Offensive Security Engineer | IT Graduate

moazabougabal@gmail.com | 01099652099 | Moaz AbouGabal | 0xAbouGabal | Exempted

Profile

IT graduate (GPA: 3.2/4.0) with a strong foundation in offensive security, penetration testing, and IT infrastructure. Certified in Microsoft Security, Compliance, and Identity (SC-900) with hands-on lab experience in web vulnerability assessment, access control (RBAC), and network troubleshooting. Demonstrates solid problem-solving and leadership skills gained through developer community roles, seeking to contribute proactive security capabilities to the Vodafone Discover Graduate Program.

Education

Bachelor of Computers and Information Technology 09/2022 – 07/2026
The Egyptian E-learning University (EELU)
- Major in Information Technology
- Cumulative GPA: 3.2 / 4.0 (Very Good)

Certificates

Microsoft Certified
- Security, Compliance, and Identity Fundamentals (SC-900)

Cisco Networking Academy
- CCNA : Introduction to Networks
- CCNA : Switching, Routing, and Wireless Essentials

Technical Skills

- **Cybersecurity & Vulnerability Assessment:** Web Application Penetration Testing, OWASP Top 10, Broken Access Control, IDOR, SQL Injection, Privilege Escalation, Security Hardening.
- **Identity & Access Management (IAM):** Role-Based Access Control (RBAC), Least Privilege, Authentication & Authorization, Microsoft Entra ID Fundamentals, User Access Management (UAM) concepts.
- **Networking & Protocols:** TCP/IP Suite, DNS, DHCP, HTTP/HTTPS, Subnetting, Routing & Switching, Wireshark, Port & Protocol Analysis.
- **Operating Systems & Infrastructure:** Linux (Ubuntu, Kali), Windows & Windows Server, Docker & Docker Compose, Nginx Reverse Proxy, SSH, Troubleshooting.
- **Programming & Tools:** Python, Bash Scripting, PowerShell basics, C/C++, Burp Suite Professional, Nmap, Git & GitHub.

Practical Experience & Projects

Hands-On Vulnerability Assessment & Simulation | PortSwigger & HackTheBox 09/2024 – Present
- Identified and exploited web vulnerabilities including Broken Access Control, IDOR, SQLi, and SSRF in simulated environments.
- Analyzed network traffic and perimeter attack surfaces using Wireshark, Nmap, and Burp Suite.
- Authored actionable vulnerability reports and Proof of Concepts (PoCs) with remediation and hardening recommendations.

Q-Hive Platform | Security Architecture & Team Lead Graduation Project
- Led the deployment and security hardening of a full-stack academic platform using Docker Compose and Nginx reverse proxy with SSL/TLS.
- Enforced strict server-side authentication, session validation, and Role-Based Access Control (RBAC) to prevent unauthorized access.
- Conducted baseline security testing and troubleshooting across Linux virtual hosts to ensure system availability and data protection.

Leadership & Extracurricular Activities

Organization Committee Head | Google Developer Groups (GDG) Assiut 08/2024 – 08/2026
- Directed on-ground logistics, attendee operations, and technical workflows for major regional events, including DevFest, Google I/O Extended, and Google 101 workshops.

Programming Instructor | Google Developer Student Clubs (GDSC) – Sphinx University 04/2024 – 05/2024
- Delivered an intensive 2-week C++ bootcamp covering core programming, memory structures, and debugging.
- Organized a competitive programming contest in collaboration with ICPC to evaluate student problem-solving skills.

PR Committee Head | Google Developer Student Clubs (GDSC) – Sphinx University 08/2024 – 08/2025
- Drove outreach strategies, expanding student participation across cybersecurity workshops and tech hackathons.
